### ONE OF THE VICIOUS PRACTICES.

Yn upr illustration of the in horse in which stocks are manipmaked as found in the recomment of the two Belghor stocks, Bolche was proposed by the actioned to depress prices by simulating not of noting and that the shipments were a camouflage to small the resolver of get rid of their holdings. San Francise houses which much not possible have known the inside facts, advised their ricents to sell at once if they did not wish to take grave boson. A drop of het per west from the lowest recorded sale was freely bureaust by the mandacious and ansertipulous bear eleand which was shield interested in acquiring the relinquished storic This whoevers exact where Tonopah people refused to nibble at the bart cast in front of their nose for it soon became known on that street that the cillainous fabrication had faller flat and that - is order from Tomopali affecting either of the Rebbers was in order or reverse the quantity of stock controlled here

It is well known that another Divide property whose stock is hold fargely in the east how-developed a substantial orelody, but a which there has not been any official approuncement. The manage went knows that the moment on official statement were sound the news would be converted into a beomerang to react on the properry. Nevertheless the ore is there and the leading stackholders are fully aware of the extent of the strike but, the policy of the company is to fight the Shylacks of Bush street with their own weapons by hurling defiance at the piratical erew that stands ready to acultle every company that makes a legitimate officer to develop a prospect into a mire. The neferious tactics of the Bish street going has brought about a polley of necrosy which withholds all information. It is a case of nell protection and in the long run the mine operators will win while the walpers will be left to their own devices.

Assistant Attorney General Figg, who has been in charge of the efforts of the department of justice to reduce prices, save that the campaign against profitorring is arouning interest in every section of the country. Perhaps that is true, but far more interest would

awakened if there was the slightest evidence that anything is being accomplished by Mr. Figg or his department.
